## WRITING SCIENCE: FROM BLANK PAGE TO PUBLICATION!

 **Apr 4, 2024**

 **14:30h**

 **Sala de Atos 1  
Biblioteca ESTIG**

### **Summary:**

The event aims to explore the process of scientific writing and publication in a less conventional way.

How to get started? Where to look for (effectively) relevant information? What to include in each section? How, for Newton's sake, to understand the publication process? How to approach reviewers appropriately (aka not insult them)?

These are some of the questions that will be addressed during the workshop, in a relaxed and informative atmosphere.

### **Speaker: Monia Martins**

Mónia Martins is from Alfândega da Fé and completed her bachelor's and master's degrees, both in Chemical Engineering, at the Polytechnic Institute of Bragança. In 2017, she completed her PhD at the University of Aveiro, with periods spent in Poland and Brazil. With more than 50 scientific articles published in international journals, she is currently working as a researcher at the Mountain Research Center (CIMO) of the Polytechnic Institute of Bragança.
