INTELLECTUAL PROPERTY RIGHTS MANAGEMENT IN RESEARCH PROJECT: LEGAL ISSUES

11h00 CET (10h00 Portugal)

Online (Zoom)

Summary:

The seminar will provide an overview of the legal sources and issues arising from the management of IPR in research projects, especially those funded by the EU. Particular attention will be paid to the legal and contractual rules applicable to the results and background of the research project, in relations with the granting authority and with other participants and third parties.

The session will be conducted in English. A sessão será conduzida em Inglês.

April 10, 2025: Rules applicable to IPR in research projects: Introduction to the legal rules applicable to the results and background of research projects.

April 11, 2025: Legal instruments for IPR management in research projects: An overview of agreements and other legal instruments for effective IPR management.

Speaker: Roberto Cippitani

Roberto Cippitani is Jean Monnet Chairholder; Professor of Biolaw; Data Law; Law of Science and Technology; he is Director of the Chair "ISAAC" (Individual Rights in Scientific Research and Cooperation) at the Universidad Nacional de Educación a Distancia (Madrid) and Visiting Professor in several universities in Europe, Latin America and China; he is Associated Researcher at the Consiglio Nazionale delle Ricerche-IFAC (Italy) and Expert Evaluator of the European Commission.
