# Artificial Intelligence Tools for Writing and Research

June 23, 2025

14h30 Portugal  
15h30 CET

Online (Zoom)

## Summary:

This webinar will provide you with a broad understanding of artificial intelligence (AI) and its applications in the world of research and writing. We'll cover the following:

- AI Basics: Get a foundational overview of large language models and learn about their benefits and limitations.
- AI Evaluation: Learn how to critically assess any new AI tool you encounter.
- Free Online Tools: Discover free online resources that can streamline your research and writing processes.
- The Future of AI in Publishing: Discuss the evolving role of AI in scientific publishing and learn Wiley's perspective.

*A sessão será conduzida em Inglês. The session will be conducted in English.*

## Speaker: David Peralta

**Dr. David Peralta** hails from the Philippines where he earned degrees in Chemistry and German Studies. He did his PhD in biosciences at the German Cancer Research Center in Heidelberg, Germany, then joined Wiley-VCH in 2014 as an editor of ChemMedChem & ChemistryOpen. Since 2017, he has been Editor-in-Chief of ChemMedChem. David actively trains researchers across the globe on various topics within science publishing and communication.
