

Deadline: 1 May 2026

CALL FOR PROPOSALS: Student-Driven Community Engineering Projects

Students are encouraged to submit proposals that drive local community impact by designing and deploying engineering solutions that meet their communities' technological needs.

**EPICS
IN IEEE**™

Engineering Projects In
Community Service

Proposal Guidelines

- Identify a problem in your local community
- Partner with a non-profit organization
- Detail how your student team will solve it using engineering and technology
- Projects must be completed within 1 year
- All projects must involve IEEE members

We strongly encourage teams to partner with:

- Local IEEE Sections and Society Chapters
- IEEE Affinity Groups such as *IEEE Women in Engineering* and *IEEE Young Professionals*
- IEEE Student Branches

Selected projects will receive up to
US\$10,000, mentorship, and resources.
Accepting Proposals: 1 March - 1 May 2026

Submit your proposal and *be part of a movement
where engineering meets social good.*

Check out the EPICS in IEEE Project Training Course to help with your proposal submission!
